

Foods from around the world

America

America

- America is a large country with lots of tasty foods. Some of these foods have a lot of bad fats and I am only allowed them as a treat!
- The **hamburger** is an American traditional, gourmet, fast food.

Apple pie

- The apple pie is a famous American treat. There is a saying:
- “American as apple pie”. It means that something is wholesome and good.

Deep-dish pizza

- You can have all different types of toppings on your pizza. I don't like pizzas but if I have one it's a Margherita one.

My favourite American food

- My favourite is the hamburger and fries, especially from McDonalds. Followed by a McFlurry! In 1940, brothers Maurice and Richard McDonald opened their first restaurant near Route 66 in California. I miss McDonalds!
